## AGED ABBESS DIES AT DUBLIN

Not Outside of Convent for 60 Years Till the War Began.

Dublin, Ireland, Nov. 28.—(Correspondence of the Associated Press)—The death which occurred recently at the convent at Edinmore, county Wexford, of Abbess Perge, a member of the community of Irish nuns of Ypres, recalled an interesting story of her flight from Belgium during the German invasion. The Abbess, who was a Belgian and 80 years old, took refuge in the Irish convent after a long and tedious journey from her stricken country. In this she was accompanied by other nuns from Ypres. Before the German bombardment drove the Abbess and the other nuns into the world she had never been outside the walls of her convent since she entered it as a novice some 60 years before. She had never before seen a railway train, and it is said there was the greatest difficulty in persuading her to enter the train that carried her to safety.

The nuns were unable to bring anything away with them and were destitute when they reached England. A place was bought for the community at Edinmore. One of the members is a niece of John Redmond, who has always taken a keen interest in the community, and who helped them to secure their present home.

Before leaving Ypres the nuns managed to bury in a safe place their precious historical possession—the flag captured from the British at Fontenoy by the Irish brigade, then in the service of France. The 'Dames Irlandaises,' as they were known, fled from Ireland to Belgium in the reign of William III. The connection with Ireland was always maintained, novices going over from Ireland regularly, although a few Belgians have been admitted from time to time. Their convent, which is close to the Ypres Town hall, was wrecked by German shells.

## AMERICA FIRST MEETING

Troy Residents Hold Big Celebration With Their Foreign Born.

Troy, Nov. 28.—This is our country for better or worse, richer or poorer forsaking all others," said Governor Charles S. Whitman in the course of an "America First" meeting at which 21 foreign born persons received naturalization papers in this city tonight.

"America offers you everything within its giving, and it is your duty to uphold by your life, if needs be, its institutions and principles. The more you give to this land of the free and the home of brave men and women the more you will receive. From its people you will receive courteous treatment and secure protection of your rights if your conduct does not interfere with other citizens. All will work with you and for you."

H. H. Wheaton, specialist in immigration education of the bureau of education, Washington, D. C., outlined the government's purpose toward teaching immigrants, saying "citizenship in this country is different from other countries because it means participation in government affairs. Each man is no subject of any prince, king or despot." He urged all to extend the hand of welcome to strangers in this country.

The meeting was held under the auspices of the county and city officials and the Troy Rotary club and was preceded by a street parade in which many foreign born citizens took part.

## MORE CASES SUSPECTED

But Origin of Foot and Mouth Plague Is Not Known.

Kansas City, Mo., Nov. 28.—Six new cases of infected cattle were found in the Kansas City stockyards today, Dr. James Fleming, head of the local bureau of the United States bureau of animal industry, announced tonight.

The diseased cattle found today have been in the Kansas City stockyards two weeks or more and it has not been possible to trace their origin. While the lesions are similar to those found in true cases of foot and mouth disease, Dr. Fleming said he would hesitate to pronounce this disease foot and mouth until further developments.

Fort Worth, Texas, Nov. 28.—Quarantine against the importation into Texas of livestock or the skins of livestock from Missouri, Kansas, Nebraska and Illinois was ordered here today by the state livestock sanitary commission. The order was said to be precautionary pending investigation of suspected cases of foot and mouth disease in these states.

## To Celebrate Pocahontas Day

Washington, D. C., Nov. 28.—Plans are being made by the Pocahontas Memorial association to commemorate the three hundredth anniversary of the death of Pocahontas, daughter of the Indian chief Powhatan who saved the Virginia colony from starvation and massacre and who is credited with having saved the life of Captain John Smith. A bronze statue of heroic size has been completed at a cost of \$10,000 to be unveiled on Jamestown Island, Virginia, in March next year, the three hundredth anniversary of Pocahontas' death at Gravesend, England. A site on the historic island has been dedicated by the Association for the preservation of Virginia antiquities and the pedestal has been erected for ten years the Pocahontas Memorial association with headquarters here, has been working for a suitable memorial and now has paid all but \$1,700 on the bronze statue. This sum is expected, will be contributed by the time the memorial is ready for dedication.

## WEAVING WEB ABOUT TEIPER

Stories of First Witnesses Are Corroborated By Others

## TEIPER APPEARED COOL

Doctors Testify That Bump on Defendant's Head Amounted to Very Little

Buffalo, Nov. 28.—Witnesses for the state today continued to build up the circumstantial case against John Edward Teiper on what charged with the murder of his mother, Mrs. Agnes Teiper in the Orchard Park road last January. Corroboration of and additions to the story of events in the road during the hour after the murders, occupied the day. In the questions of Edward R. O'Malley, counsel for Teiper, was given today an indication that the defense will adhere to Teiper's story of an attack by a mysterious assailant. Mr. O'Malley demanded of the witnesses who were telling of the events after the tragedy if they had heard that a handman handkerchief had been found near the scene. The defense will contend that this was the only clue left by the mysterious assailant.

Dr. Willard B. Jolls of West Seneca, who was called to attend Teiper at his home after the tragedy, testified today that he did not regard as serious the bump on Teiper's head. He had prescribed only rest for Teiper. Under questioning he admitted that he had known patients to become unconscious from such a blow as Teiper apparently had received, but that Teiper was a powerful, healthy young man who should not have been knocked out so easily.

Dr. Howard L. Hunt, the Teiper family physician, was not called to the house but was sent there by the district attorney. He saw nothing to indicate any pressure on Teiper's brain which would have made the patient unconscious. Teiper told of having his coat torn by a stab from a knife in his assailant's hands, but there were no marks on the arms, the physician declared.

Daniel H. George of Orchard Park who went to the scene of the murder when summoned by Constable Baker, corroborated the constable's statement that Teiper had been absent from the scene for at least 15 minutes. When Grace Teiper was put into an automobile to be taken to the hospital, it was suggested that Teiper accompany her, but he declared that that would be impossible. It was then suggested that Teiper say something to his wounded sister. He went to the automobile and said, according to the witness, "Oh, no, did they hurt you last night?" He turned away from the car with a sob and a sob. That was the only sign of emotion George saw Teiper display at any time.

Earl P. Young, who was with George, told the same story. He said that Teiper was agitated and asked him for a cigarette, which he gave.

## Wage Increase Force Clothes Makers

New York, Nov. 28.—An increase in pay of from 25 to 40 cents to meet the increased cost of living will be given the 32,000 employees of members of the American Clothing Manufacturers' association, beginning Dec. 15, it was announced here tonight. The advance will represent an increase in wages of \$5,000,000 a year.

The increase will be given to all employees regardless of whether they are affiliated with the union, according to a statement made by Herbert C. Anzorg, president of the association. Slightly more than half of the persons employed in the men's clothing trade in New York will be benefited. Three-fourths of them are men and the remainder women.

"Inasmuch as most of the tailors in this branch of the industry are employed by contractors," said Mr. Anzorg, "each member of the association will make arrangements with his respective contractor during the early part of December to enable them to meet the granted increase to their workmen."

## German Pioneer to Morocco Dies

Amsterdam, Holland, Nov. 28.—The Deutsche Rundschau recently announced the death of Otto Mannesmann, one of the German pioneers in Morocco, who was killed in fighting in East Africa against the Anglo-Belgians. Mannesmann was responsible for the dispatch of a German warship to Agadir in West Morocco in 1911 as a protection to German subjects. The affair threatened to start trouble between Germany and France but ended in the withdrawal of the German warship.

## First Appointments Announced

Albany, Nov. 28.—The appointment of Thomas C. Stowell, an Albany newspaper man, as executive secretary, and of G. N. Messer of Worcester, Mass., as assistant inspector of physical training in schools, were announced by the New York state military training commission here today. The appointments are effective Dec. 1.

## Milhollands Leave for New York

Los Angeles, Cal., Nov. 28.—Mr. and Mrs. John E. Milholland left here today for New York, accompanying the body of their daughter, Mrs. Inez Milholland Boies-Bavin, who died Saturday night after a month's illness. Mr. Boies-Bavin and Miss Vida Milholland left yesterday.

## TRAIN HITS CROWD; FIVE DIE

Workmen Confused and Run in Front of Approaching Danger.

Passaic, N. J., Nov. 28.—Five men were killed and at least seven others injured tonight when a passenger train on the Lackawanna railroad ploughed through a crowd of about 400 employees of the Canadian Can & Lumber company who were walking along the tracks to a special train which was to take them from the plant at Kingsland to their homes in this city, Hoboken, Jersey City and Newark.

The men who lost their lives and most of the injured were negroes. Work for the day had been suspended and the crowds were hurrying along the tracks to the special train. Suddenly a westbound train dashed out of a tunnel and the men were thrown into a panic. Before they could clear the tracks the train struck them. The bodies were hurled in the air or carried under the wheels.

## TORPEDOED STEAMER BORE AMERICAN FLAG

CREW OF U. S. VESSEL TOWED TO SAFETY BY SUBMARINE

Paris, France, Nov. 28.—A Madrid dispatch by wireless announces the arrival at the port of the crew of the American steamer Chemung, torpedoed in the Atlantic by a German submarine. The commander gave the crew only a few minutes to abandon the vessel, not even allowing them to take their money and papers.

The submarine towed the lifeboats, in which the crew were placed, to within five miles of the coast, where it abandoned them.

The Chemung went down with the Stars and Stripes floating at her mast. The German commander gave order that the American flag should be lowered and German sailors prepared to put them into effect. They met with resistance on the part of the American Captain Duffy and his crew, who refused to haul down the colors, saying that if the ship had to be sunk it would be with the flag flying.

Captain Duffy maintained his ground and so rapidly were the preparations to sink the Chemung made that further discussion about the flag ceased and after the captain and crew had been taken aboard the submarine a torpedo and three shells sent against the side of the American ship put her to the bottom.

Although angry at the action of the German commander, Captain Duffy and his men had some measure of satisfaction in seeing the flag at the mast-head as the waves finally engulfed their ship.

The Chemung was registered at New York and carried a crew of 24. They found a place in two life-boats and after a time on the open sea were picked up by a Spanish steamer, which took them to Valencia. Captain Duffy has made a long report of the incident to the American consul at Valencia.

## BRITISH CRUISER SUNK

German Statement Gives Details of Loss of Newcastle, November 15.

Berlin, Germany, Nov. 28.—Via Sayville.—The British cruiser Newcastle is reported to have been sunk at the entrance to the Fifth of North, Scotland, Nov. 15, by coming in contact with a mine, according to the Overseas News Agency.

"It is reported from Rotterdam," says the agency, "that the British cruiser Newcastle on November 15 struck a mine in the North sea and sank at the mouth of the Fifth of North while attempting to reach a home port. Of the crew of the Newcastle 27 men were killed and 47 wounded."

## STORY OF CHEMUNG'S LOSS

Vessel Carried Contraband as Did the William P. Frye.

Washington, D. C., Nov. 28.—Official report on the destruction of the American steamer Chemung by a German submarine was received by the state department late today from the American consul at Valencia, Spain. He said all on board had been landed safely.

The case appears to be similar to the destruction of the American ship William P. Frye, and the Icelandic, both carrying contraband, damages for which are to be awarded by diplomatic negotiations. As there was no loss of life nor apparent violation of Germany's pledges the case is not regarded as alarming.

## Insurance Men Protest

Utica, Nov. 28.—Sixty district superintendents of insurance met here today to protest against the law which developed from the Hughes investigation in 1905, fixing the limit of business a company may do in a year. One company arrived at that figure October 27, and the agents have nothing to do until January. Declaring the law oppressive, action was taken looking to carrying the matter to the legislature.

## TEUTONS CLOSE TO BUCHAREST

Closing in On Capital From Three Different Sides

## RUMANIANS IN DANGER

Petrograd Admits Fresh Successes By Turks in Turkish Armenian Sector

London, England, Nov. 28.—With the forces of the Central powers in possession, according to German official reports, which hitherto have played accurate with regard to recent events in Rumania, of Curtea de Arges, an important railway terminus 90 miles from Bucharest and Giurgiu, on the railway 40 miles southwest of the capital, anxiety as to the fate of Bucharest is greatly increased.

Feld Marshal Von Mackensen's capture of Giurgiu shows that his army has advanced 90 miles in a single day. Further a Bulgarian communication claims that the Danube has been crossed at Vidin and the town of Kalaraf, opposite Vidin, captured.

Nothing is yet admitted by the Rumanians of these enemy advances, but it is assumed that the Rumanians are containing their order, retirement to the line of the Arges river. A danger however lies in the possibility of this retirement not being effected quickly enough to prevent an attack on their flank from Von Mackensen's forces.

It is impossible to doubt that the situation is viewed here with the greatest misgivings. The question is being asked whether the accession of Rumania to the allies' cause has been a strength or weakness and whether the allies might not have shown more initiative in attacking from Salonika; whether the collapse in Rumania is due to any lack of unity of the allies plans or whether it is due in large part to Rumania's hasty invasion of Transylvania.

In the meantime all eyes are turned to Dobruja where, it is hoped, Lieutenant General Sakharoff, commander of the Rumanian army, may succeed in retrieving the situation by a counter move against Von Mackensen's forces in that quarter and in the northern frontier passes where it is hoped the Rumanians will be able to stem the further advance of Von Falkenhayn's army. Could these hopes be realized it is believed that the Rumanians may be able to make a stand on the Arges river and save their capital.

## WAR NEWS CONDENSED

The operations of the Teutonic allies in Rumania have brought them appreciably nearer Bucharest and are still progressing from the north and the west and the south and southwest.

The northern bank of the Danube in Rumania extending westward from Giurgiu on the railroad south of Bucharest, to opposite Vidin, a short distance from the Serbian border, is now in Teutonic hands. The capture of points in this region opposite Vidin, Lom, Palanka and Rahova by the Bulgarians would seem seriously to menace the Rumanian troops from the Orsova and Turnu Severin sectors who were reported several days ago to be in retreat to the southeast.

The occupation of Giurgiu brings the line of Field Marshal Von Mackensen to within 37 miles of Bucharest on the south, while the capture of Curtea de Arges, 80 miles northwest of the capital, has evidently cleared the Topolovo sector of Rumanians and given the invaders the railroad to the important town of Pitesti, the junction of the line running from Campulung to Bucharest.

In the center the Teutonic allies are still driving eastward, having left the Alt Valley far in their rear. An official dispatch from Bucharest says the retirement of the Rumanians is proceeding in perfect order toward a new front already settled on for defense.

The operations in Macedonia are somewhat befuddled by reason of divergent reports. Berlin says that north of Monastir renewed attacks by the entente allies failed, while the Serbian war office claims that in fighting along the entire front the Serbs at different points made advances of several hundred meters. Sofia, on the other hand, asserts that attacks on hill 1970 and the village of Paralovo were put down by the Bulgarians and Germans, as likewise was a British offensive in the Vardar region south of the village of Bogoroditsa.

On the front in France and in the Austro-Italian theatre nothing but bombardments have taken place. South of Dvynsk, on the Russian front, artillery duels have been in progress. Considerable activity also has developed in the region of Riga. In the Carpathians the Rumanians have begun another attack against the Austro-Germans and fighting is now proceeding briskly.

Petrograd admits that the Turks have occupied the towns of Adraman and Kozhikhoos south of Van, Turkish Armenia.

The American steamer Chemung has been sunk in the Mediterranean off the coast of Spain by a German submarine but the crew was landed. Eight other vessels, two each flying the British, French, Greek and Norwegian flags have been sunk, either by mine or torpedoes. Their aggregate tonnage was about 20,000. In addition the

## UNIVERSAL MILITARY TRAINING

Will Be Urged by Senator Chamberlain as the Only Method.

Washington, D. C., Nov. 28.—Universal military training in some form as the solution of the recurring problem for the army and navy will be placed formally before congress during the coming session if Chairman Chamberlain of the senate military committee is successful in carrying out his announced program.

On his return to Washington today Senator Chamberlain said he would press his own bill for such training introduced last year. Senator Chamberlain said the virtual impossibility of raising the army up to the peace strength authorized in the national defense act already had been demonstrated. The army has been unable to obtain even the 20,000 additional men provided for when the Mexican situation became acute and the navy is making such slow progress with its increases that officials are perplexed. The Chamberlain bill will require military training of all boys between 12 and 21 years of age, except those specially exempted. The active division, composed of those between 18 and 25 years would be known as the citizens army, and the younger corps as the citizens cadet corps.

## MAY LIFT EMBARGO

If Protocol Is Signed Carranza Can Get Ammunition From U. S.

Washington, D. C., Nov. 28.—Heavy expenditure of ammunition by General Carranza in his desperate fight with Villa at Chihuahua is expected here to result in strong pressure on Carranza for prompt ratification of the protocol signed at Atlantic City by the Mexican American commission. Although no representation was made by the Mexican members looking toward the lifting of the embargo on arms and ammunition they were given to understand that consideration would be given to such representation if Carranza displayed a willingness to enter into an agreement whose basic principles would be the protection of life and property of foreigners in Mexico.

Alberto J. Pani, the Mexican commissioner designated to place before Carranza the protocol signed at Atlantic City, is expected to arrive at Queretaro, where the first chief has established his capital, late tomorrow night.

Administration officials do not minimize the importance of Villa's renewed strength, but few believe it will assume such proportions as to alter the plans of the United States.

## CAPITALIZATION TOO HIGH

Is Cautious of Dodge Bros. in Suit Against Henry Ford.

Detroit, Mich., Nov. 28.—Attorneys for John F. Dodge and Horace E. Dodge, making final argument this afternoon in circuit court in the injunction suit brought against Henry Ford, president of the Ford Motor company, alleged that the Ford company's capitalization is much greater than the maximum allowed by Michigan law.

It was argued that although the company's articles of incorporation show a capitalization of \$2,000,000, the assets of the concern are now worth \$400,000,000. It was asserted by the attorneys that Mr. Ford's plans for greatly increasing the output of his plant might conflict with state incorporation laws.

The state law now provides that no concern can incorporate for more than \$25,000,000 in Michigan.

Earlier in the day attorneys for Ford argued against the issuing of a permanent injunction restraining Ford from using the company's profits for development purposes.

## TWO ZEPPELINS WERE LOST

Berlin Admits That One Machine Was Shot Down and Another Failed to Return.

Berlin, Germany, Nov. 28.—A German official statement on the air raid on England says that one ship was shot down and that another did not return. The statement says:

"On the night of November 27-28, several German naval airships bombed British furnaces in middle England. At several places conflagrations were observed."

"An airship was shot down by the enemy near Scarborough and another was not returned, so that it must be considered lost. The remaining airships returned and landed."

## Airplane Bore Map of London

London, England, Nov. 28.—An admiralty announcement late last night says:

"The commodore of Dunkirk has been informed by the French authorities that they brought down an airplane at 2 15 o'clock Tuesday afternoon carrying two naval lieutenants and with a large scale map of London aboard."

## Twelve and Half Tons of Turkey

Brownsville, Texas, Nov. 28.—Twenty-five thousand pounds of turkey for the Thanksgiving dinners of the soldiers on the border in this vicinity arrived today.

## Danish steamer Villmoes has been captured by the Germans

Two more Zeppelins which were raiding northeast England have been brought down in flames by anti-aircraft guns. The crews of both airships perished. A German airplane has dropped bombs on London. Nine persons were injured. The material damage was slight.

## FIGHTING HIGH COST OF LIVING

New York City Departments Begin Concerted Efforts

## EGGBOYCOTT DECLARED

Board of Aldermen Appoint Committee to Study Means of Checking the Evil

New York, Nov. 28.—New York city's fight to reduce the high cost of living began in earnest today with a boycott on eggs by thousands of housewives.

This was followed by a direct appeal by the national housewives leagues to President Wilson for the regulation of the country's food supply and meetings of federal, state and city officials and investigating committees as well as civic organizations at which resolutions were adopted looking to a speedy readjustment of conditions. Coincident with the egg boycott, there was a break in the poultry market, the price of turkeys dropping from four to five cents a pound.

Virtually every branch of the municipal government was at work today in an effort to find a solution to the food problem. A statement issued by Israel Feinberg, president of the board of coroners, declared that "the present high cost of living is directly reflected in an increase in the number of suicides, deaths from lack of proper nourishment, and both control."

The culminating feature of the day's activities was the passage by the board of aldermen of a resolution providing that the committee on general welfare be directed to report as early as possible, "a practical plan for investigating such conditions with a view of adopting such ordinances, recommending such legislation, or taking such steps as may be best calculated to remedy the evil."

At the same time the department of health was instructed to make a thorough investigation of storage warehouses and the corporation counsel was asked to advise the board as to the extent of its powers as a municipal legislative body, consistent with existing law, in connection with this general subject to the end that the threatened evil may be avoided by speedy, well considered recommendations to the proper authorities—municipal, state and national.

Another resolution which was referred to the committee on rules, called for an investigation of the "method and means of transportation, distribution, purchase, and the fixing of prices of all commodities necessary to life."

Commissioner of Weights and Measures Hartigan announced that Mayor Cornelius F. Burns of Troy, president of the Conference of Mayors of the state of New York, would come here tomorrow for a conference with Mayor Mitchell and Mr. Hartigan, to devise "a comprehensive, unified program to conserve the food supply of the state and keep the prices down."

Co-operating with Commissioner Hartigan in extending the boycott on eggs, he said tonight, were seven hundred motion picture theatres in the greater city. These houses, will, until further notice, display the following notice on their screens:

"Shut the egg gamblers. Join the egg boycott. It's the man higher up—not the retailer. Practice economy in use of eggs. Buy only for aged, infirm and children. Decrease the demand and watch the price come down. It's up to you."

Sixty-five cents of every dollar paid by the consumer for food goes to the middleman, according to John J. Dillon, commissioner of the New York state department of foods and markets, who testified today before the Wicks legislative committee in its investigation into the high cost of living.

An explanation as to "why the consumer does not get food cheaper when there is plenty of it" was given by Commissioner Dillon.

"Where there is a surplus of products here," he said, "the price to the producer is low. The crying sin is that the price very seldom gets lower to the consumer. Not only is there no attempt to increase the consumption but there is a deliberate attempt made not to do it."

"I have seen cauliflower, cabbage and lettuce sold in the wholesale for less than would pay the cost of the freight. Yet in the retail markets the price was the same as when they were scarce."

The commissioner asserted, as an instance of the middleman's grip on the situation in this state that although there is a good market here for New York apples, it is almost impossible to buy the product here. Speculators here, he said, who advance money to western growers, have directed western apples to this state.

At a meeting tonight of the citizens open market committee, a resolution was passed providing that a committee of citizens be forthwith appointed to prepare legislation for the state legislature and that the governor of the state of New York be, and is hereby requested, to appoint a committee of not less than three to confer with the committee on market of the board of estimate representing the city of New York; the aforesaid to hold public hearings and to report its recommendations to the governor of the state of New York as to legislation and financial appropriations, all with a view of insuring a fair price to producer and consumer through proper market terminals."

## HISTORIC SCENES IN OLD NEW ENGLAND

OLD HADLEY, where a regicide, of Charles I appeared "from nowhere," and saved the panic-stricken settlers

Old Hadley, a beautiful New England town, situated upon the east bank of the Connecticut River some twenty miles north of Springfield, Mass., was a center of great activity during the stirring days of King Philip's Indian wars. On Sept. 1, 1675, while at worship in the village meeting house, the inhabitants of Old Hadley were surprised by an attack upon their settlement by a horde of Indians.

Abandoning worship, they seized their arms and rushed out to defend their homes, but the suddenness of the attack found them utterly demoralized. When the confusion was at its height there suddenly appeared in their midst an unknown man of grave and elderly bearing, who at once took command of the situation, issued orders, rallied the defenders and in short order routed the redskins from the town. Then, as suddenly as he had appeared, did the stranger effect his removal from the scene, and his identity for many years remained a comparative mystery.

It was later established that the deliverer of Hadley was General William Goffe, one of the three living regicides of Charles I. and for whose head a liberal bounty was offered. After years of pursuit from place to place he found safe hiding under the hospitable roof of Pastor John Russel of the Old Hadley congregation. It is believed that after his spectacular deliverance of the Hadley settlers he remained still undiscovered in the Russel household until his death some five years later.

A beautiful state road winding up the Connecticut valley takes thousands of autoists each year directly by the spot where General Goffe rallied the inhabitants of Old Hadley to the defense of their homes.

\*\*\*\*\*  
Chauncey M. Depew, who is eighty-  
two years young and getting younger  
every day, paid his respects to King  
David of the Bible in an address re-  
cently delivered before the Academy  
of Medicine on "The Art of Growing  
Older and the Value of an Interest in  
Public Life." Mr. Depew took issue  
with David over the Ninetieth Psalm,  
wherein David wrote this:

"The days of our years are three-  
score years and ten, and if by reason  
of strength they be four-score years yet  
is their strength labor and sorrow, for  
it is soon cut off and we fly away."

This Mr. Depew conceded to be first-  
class literature and very fine in lan-  
guage, but he made it very plain that  
he considered it distressingly poor so  
far as facts were concerned. David,  
Mr. Depew intimated, might have been  
aid in reaching his conclusion that  
twenty years was enough for any man  
by the fact that his life was very full.

Lays Many Deaths to David.

"That verse of the Ninetieth Psalm  
has made the deepest impression on  
humanity of any literature ever writ-  
ten," said Mr. Depew. "It has had a  
tremendous effect for 2,000 years."

"There is no telling how many men  
and women have died because they be-  
lieved David."

"He has probably caused ten times  
as many deaths as will be caused by  
the way in which the deaths of peo-  
ple who have died because they have  
had it drilled into them that they can-  
not live beyond a certain time."

"It is rather curious how everybody  
accepts David's word for it that they  
cannot live more than seventy years."

Mr. Depew does not believe that the  
old man and the old woman, as the  
terms have been accepted for genera-  
tions, exist today.

"I remember perfectly," he said,  
"that about seventy-five years ago in  
my village we had old men and old  
women. After they reached sixty the  
women put on a cap and a shawl, the  
men quit work, and everybody knew

around the house waiting to die. There  
aren't any like that now. You don't  
see any old women here wearing caps  
and shawls. It is all we can do now-  
days to tell the mother from the daugh-  
ter."

Science Aids the Aged.  
"And Shakespeare's seven ages do  
not exist today," said Mr. Depew. "Take his seventh  
age, when a man is sans teeth, sans  
eyes, sans taste, sans everything. Sans  
teeth? The dentist today can make  
him a better set of teeth than he ever  
had."

The greatest mistake that can be  
made by a man who thinks he is get-  
ting old, Mr. Depew declared, is to  
give up and retire.

"The process used to be the same,"  
he said. "The first year the old gen-  
tleman retired to his old home and sat  
down to die. The first year he felt  
fairly well because there was enough  
money in it to keep him interested.  
The second year he became irritable  
and began to take medicine. In the  
third year he began to take patent  
medicines, and in the fourth year we  
usually read his obituary."

No man, Mr. Depew declared, should  
retire unless he can retire into some-  
thing which interested him as much  
as he was interested in his business.  
This may be sport, because for most  
men sport is possible in some form or  
another.

## WHAT ONE SEES IN HOLLAND.

Many Things, of Course, but Mostly  
Black and White Cows.

And what does one see in Holland?  
Black and white cows—black and  
white cows in small squares of green  
pasture; windmills, innumerable per-  
fect vegetable gardens, black and white  
cows; narrow canals where fences  
ought to be and which the black and  
white cows seem never to cross with-  
out permission, women and girls in  
adorable Dutch costumes or in hideous  
mishaps of modern garments; black and  
white cows; ten thousand models of the  
"Man With the Hoe" in ten thousand  
flower bedged gardens; windmills  
and church spires against the low sky  
line, Dutch Reformed church spires  
mostly and nothing much to speak of,  
but with hundreds of black and white  
cows in the foreground.

Long strips of canal crowded with  
ugly or quaint craft of various kinds  
and lined with primly set rows of  
sturdy trees or with high gabled, red  
roofed red brick houses; in village  
squares acres of red and yellow and  
purple flowers and, in certain sections,  
if the season is right, fields upon fields  
of low growing, wonderful flowers,  
but principally black and white cows  
in small squares and oblongs of green  
pasture.

Broad open meadows? Densest for-  
ested areas sheltering wild things of  
the earth and sky? Lands and low-  
lands? Wide, westerly rivers running  
hose in a riotous snail? No, nothing  
like that in Holland. The Dutch  
cheese is a snug little cheese all slick  
and firm and brightly colored. That is  
Holland. Who is it that, wherever you  
go in the wide, wide world, from the  
islands of the south seas to the lands  
of the all summer sun, you can nearly  
always get an Dutch cheese?

The answer is that there are three  
million and some hundred odd thou-  
sands of black and white cows in Hol-  
land, a cow at least for every two  
persons—man, woman and child.  
There are sheep and goats and pigs as  
well, but they are not so conspicuous  
in the landscape. Eleanor F. Lean in  
Saturday Evening Post.

## First Recorded Solar Eclipse.

Herodotus gives us the initial record  
of a total eclipse of the sun when he  
observes that about 480 B. C., in the  
first struggle between the Medes and  
Lydians, he tribes were brought to a  
sudden close in the day turning into  
night.

## FINANCIAL AND COMMERCIAL

New York Markets.

New York, Nov. 28.—The attitude  
of the federal reserve board respect-  
ing the further free acceptance by na-  
tional banks of foreign securities based  
on war emergencies was the all per-  
vading subject of discussion in finan-  
cial circles today. Various interpreta-  
tions were placed on this important act  
and speculative sentiment was de-  
pressed.

Markedwise, one of the direct results  
was observed in the lower trend of  
international loans floated in this  
country since the outbreak of the war.  
Virtually all issues of that description  
were heavy.

Denial from authoritative quarters  
of any serious peace negotiations were  
without beneficial effect except on for-  
eign remittances, exchange rates to  
Germany and Austria undergoing fur-  
ther declines with a material easing of  
rubles.

Local and interior financial institu-  
tions were in accord in demanding  
higher rates on time loans.

Lowest prices were made toward the  
close, the list then showing some un-  
settledness on rumors of another ma-  
rine disaster involving possible inter-  
national complications. Extreme re-  
cessions of one to three points were  
registered by equipments, copiers and  
other metals, sugars, motors and in-  
dustrials comprising the steel and iron  
class. U. S. Steel was relatively steady  
but Bethlehem Steel fell 25 points on  
a single transaction.

U. S. Bonds unchanged on call, but  
coupon 1's fell 3-8 per cent on sales.

Hogs—Receipts, 1,372; firm light to  
medium hogs, 9.50 to 10.00; roughs,  
8.75.

## Floundering in Pronouns.

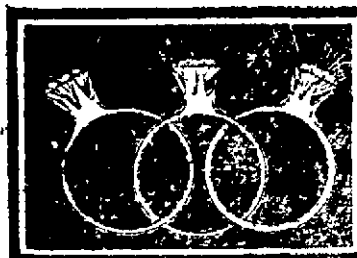

Attention is often directed to the in-  
evitable cockney "derangement" of  
negatives. There is a provincialism  
that hounds among the personal pro-  
nouns. An assize court witness in a  
case arising from a brawl when asked  
what she knew about it replied, "Well  
her told I to hit her," and counsel re-  
marked, "Her did, did her?" Naught  
blushed, witness added, with confi-  
dence, "And then her came at me!"  
London Globe.

## Another Quibble.

"Don't you hate to sleep in an upper  
berth?"  
"No; I like to sleep when I have to  
take an upper berth."

## DIAMOND

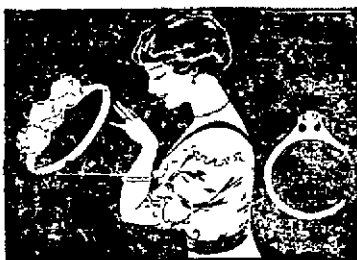

--the one perfect gift

What could show your love more perfectly  
than a gift of a Diamond?

Remember a Diamond Never Wears

Out and Is Always Appreciated.

High Grade Diamonds—Oneonta Jewelers have  
well selected stocks, and when you buy of these reli-  
able Jewelers you get good value and just what you  
pay for. You also have the advantage of seeing your dia-  
mond under a jewelers glass before paying your money.

It is possible to get diamonds as low or even  
lower than \$70 per karat. The low priced  
diamonds are far from being desirable, they  
are not brilliant, due to many carbon spots.  
When buying of Oneonta Jewelers the dif-  
ferent grades will be explained to you.

tertainment to be held in the school

## Still Without a Physician.

Bloomville is still without a resident  
physician and the Hobart and Delhi  
doctors get a good deal of patronage  
in the village and vicinity. Dr. Dart  
of Hobart makes almost daily trips here  
and Dr. Ormiston of Delhi also has a  
large number of patients here.

## Viewing the Wreck.

Bloomville people generally and also  
large numbers from a greater distance,  
viewed the wreck on the C. & D. about  
two miles east of this village Sunday.  
As regards destruction of property and  
blocking of the track, the wreck is  
said to be one of the worst the rail-  
road has ever had, and that no one  
was killed or even hurt, is great cause  
for thankfulness. Had the broken car  
wheel which caused it, been on a car  
near the engine, there would probably  
have been loss of life. The operations  
of the wrecking crew who were clear-  
ing up the debris, were an interesting  
sight to the spectators. With the broken  
and splintered cars and bridge tim-  
bers was piled up, probably enough  
coal to last this entire village all win-  
ter.

## RYZON Rice Popovers

2 level teaspoonfuls RYZON; 2 cups (½  
pound) flour; 2 eggs; 2 cups (1 pint) cold boiled  
rice; 2 level tablespoonfuls (1 oz.) sugar; 2 cups  
(1 pint) milk; 1 level teaspoonful salt.

Mash rice until smooth. Sift flour, sugar, salt and  
RYZON together twice. Beat up yolks of eggs, add  
what beaten to a stiff froth and stir them into the rice.  
Then add milk and flour alternately and beat until smooth.  
Have your pans greased and a little flour stirred into each.  
Fill each two-thirds full with the mixture and bake in a hot  
oven for fifteen minutes. Serve hot with butter or maple  
syrup. Sufficient for twenty popovers.

Mrs. Hickok, wife of Rev. C. R.  
Hickok, of the Methodist church.  
Owing to the funeral of Dr. Griffin be-  
ing held this afternoon in Oneonta, the  
attendance was very small, as arrange-  
ments could not be made to cancel the  
date in time. A luncheon was served  
and the afternoon spent in social inter-  
course. Those from out of town at-  
tending were Mrs. O. L. Buck of Mt.  
Upton, and Mrs. H. L. Snyder of  
Masonville.

Annual Cemetery Meeting.  
The lot owners of Prospect Hill  
cemetery will hold their annual meet-  
ing at Odd Fellows hall, December 2,  
at 1:30 p. m., to elect three trustees in  
the place of W. F. Wanzer, George  
Hall and W. O. King, whose terms ex-  
pire.

Annual Fair of St. Paul's Guild.  
On December 5-6 the Guild of St.  
Paul's church will hold their annual  
fair in Municipal hall. In addition the  
musical play, "The Yokehoma Maid,"  
will be given with Mrs. Lillian Wheeler  
in the principal role. The music will  
be under the direction of the Sidney  
Philharmonic orchestra.

Better Church Attendance.  
An innovation in securing church at-  
tendance was introduced in Sidney last

Sunday when the Methodist church  
sent out 11 committees of two mem-  
bers each, to call upon the entire  
membership of the church. The calls  
were made between the hours of 2 and  
5 o'clock p. m., and resulted in a  
crowded church that evening. A special  
musical program was part of the even-  
ing service.

## Sidney Monday Club to Meet.

The meeting of the Sidney Monday  
club next week will be at the home of  
Mrs. O. L. Keeler. The topic under  
discussion will be Philanthropy, and  
especially as it is applied locally. At  
the meeting yesterday, "How to Make  
Sidney Beautiful," was discussed. Mrs.  
Spencer and Miss Potter were appoint-  
ed a committee to get in touch with  
the D. & H. officials with regard to  
beautifying the station grounds. Mrs.  
Allen was appointed a committee to  
interest the newspapers in the matter  
of keeping the streets clean, and Mrs.  
Bion Smith was also appointed as a  
press committee to promote publicity  
with regard to this matter. The school  
children will also be asked to aid in  
keeping the streets clean. Much com-  
plaint is made by residents of the  
streets leading from the school  
grounds about the children tearing up  
papers and scattering them on the  
lawns.

## Ontario &amp; Western Time Table.

The winter time table will go into  
effect on the O. & W. Sunday, Decem-  
ber 3. The only local change of im-  
portance is in the time of train 13  
which will arrive in Sidney at 12:26  
p. m., instead of 11:10 a. m., as at  
present. This will be a convenience  
missed by people living south of Wal-  
ton as they will be unable to make  
connections with D. & H. trains 302  
and 307 as heretofore. Trains 13 and  
14 south of Middletown will be taken  
off and the trains consolidated with  
trains 9 and 10.

## LIVE STOCK ASSOCIATIONS.

There are some sections of the country that have become noted for the quality of the live stock they produce. In most instances this is found to be the result of concentrated effort. The state of Wisconsin offers a splendid illustration of what can be accomplished through community breeding associations. Here are to be found 136 organizations devoted to the breeding of high-class live stock. Of this number 108 are promoting cattle of the different dairy breeds; 2, beef cattle; 10, horses; 2, swine; and 14, general live stock. These associations have met with marked success and prove conclusively that community livestock breeding is not an experiment when thoroughly organized and properly conducted. Livingston county, Mich., and a considerable section of New York, particularly the region adjacent to Syracuse, are famous for their dairy cattle. In Iowa prominence has been gained in swine raising. The blue-grass region of Kentucky, noted as the center of American saddle horse breeding, affords a further example of the success resulting from unity of effort and purpose. There the still other sections where attention is given to the production of the different classes of live stock. Each is noted as a breeding center, and buyers who pay the highest prices are attracted from other states and even foreign countries. Otsego county, our own county in New York, outdoes even the best of similar sections in any of the other states mentioned in the number of its breeding associations. It boasts as entirely its own "three cattle breeders' associations": the Jersey, Guernsey and Holstein; and one also of sheep breeders; while there is as a sort of protecting and inspiring force above them all the County Farm Bureau. What such organizations will accomplish was shown at the State fair at Syracuse last fall, when Otsego carried off the palm for choice cattle both as to number and excellence from all the other counties of the state, some of which had possibly as fine herds, but where the breeders were not so well organized. In fact, and it is in large measure the result of the untiring energy of Farm Agent Barlow, the county of Otsego does not need to take a back seat, anywhere for anybody.

## COMMENTS OF THE PRESS

### The New Emperor.

An incidental result of the death of Francis Joseph will be the necessity of calling together the Reichsrath in order that the new emperor may appear before it and swear to uphold the constitution. This event would be notable in itself, if only because since the outbreak of the war parliament has been suspended, and in Vienna there are rumors that Charles I. intends to show his confidence in the people by allowing the resumption of parliamentary activity. To this both the late emperor and the recently assassinated Austrian premier Count Stuergh were firmly opposed. The new premier, Dr. Von Koerber, is supposed to be a man of somewhat more liberal temper, and if he and the new emperor are in accord, the gag may soon be removed, making it possible to get some notion of what the polyglot peoples of Austria are thinking and feeling. But as things stand, Austria cannot go far without permission of Germany, which controls the proud and ancient realm of the Hapsburgs almost as completely as Belgium or Russian Poland.—[Springfield Republican.

### Sees No Signs of Peace.

Britain is getting grimly ready to face the worst in any case. She can ration herself as well as Germany. In endurance she is not to be beaten by any other people. That is her bulldog quality. France is planning for a mobilization of her whole population. Germany has it largely already, and is preparing to make it more drastic. These traits of the old world are setting down with fixed teeth and firm will for a prolonged struggle. There never was less sign of peace on the horizon. Our leaders are beginning to talk of victory by exhaustion, calculating on our numerical superiority to make sure that the exhaustion will not be ours. But it is still possible that the spring will see a change in strategy which may enable us to employ a larger proportion of our troops simultaneously, and so bring an earlier victory through tactical skill.—[Montreal Star.

### Mexico and the Elusive Villa.

Mexican dispatches published Saturday morning declare that Villa has been beaten again and is in flight. This may be true or it may be like the reports of his death frequently issued. He has been killed in the dispatches a good many times within the last year or two and shortly after has been resurrected and gone out on another raid. The Carranza officials make numerous claims of their ability to cope with the bandit, but somehow they seldom if ever make good. They can capture and even kill him in the newspapers, but as long as he comes to life again or escapes within a day or two that is not very important.—[The Press.

## THE ELECTION IN CALIFORNIA

ANALYSIS OF SITUATION FROM PEN OF E. A. STRONG.

Women Voters Influenced by "He Kept Us Out of War" — Chatter About Former and Present Otsego People.

Editor Star—The electoral vote of California has greatly interested the people of the whole country since Nov. 8, when it was found in the doubtful column and elicited many comments from newspapers, favorable and otherwise. The vote of the states west of the Missouri river was a surprise party for the Republicans and California is considered the pivotal state. The query is, what influence carried California for Wilson? I believe it was the attitude of the stand-pat element of the Republican party and of certain prominent newspapers in Los Angeles, San Francisco and other parts of the state. They seemed to consider it was going to be a Republican landslide and a good time to throw overboard the leaders of the Progressive movement (mostly Republicans) and whip back into line the rank and file of that element. Under the leadership of Hiram Johnson, the state was taken from the control of the Southern Pacific railroad and the people of California evinced their faith in him by making him governor of the state twice by large majorities, nominating him for United States senator and electing him by an immense majority. So what was the use or wisdom of some of the leading Republican papers subjecting Governor Johnson to continuous and virulent abuse that reacted against Charles F. Hughes, who was forced into a false position while in California by this same stand-pat element. Governor Johnson did not trade votes against Hughes, as he was practically sure of being elected United States senator, but thousands of Progressive Republicans evidently did resent the attitude of the old-line leaders and puppets and showed it by their votes.

Without doubt many voters were influenced to vote for President Wilson by the well-worked plan that "he kept us out of war," and my experience was that it worked especially well with the women voters. But what was the matter with Otsego county to give Wilson a majority?

Then, again, we voted on two amendments to the constitution of California to prohibit the sale, gift, etc., of alcoholic liquors in the state. The amendment No. 1 seemed very moderate and very reasonable, as it was not to take full effect until January 1, 1920. Amendment No. 2 was still more liberal, as it allowed people to buy direct from the manufacturer in not less than two-gallon lots for private use. Therefore this amendment was severely criticized by Prohibitionists. Nevertheless, both amendments were defeated by the men and women voters of California, although Southern California gave about 30,000 majority for the amendments.

When considering that Michigan, with the large city of Detroit and its floating population, was carried for prohibition, and Nebraska went the same, and women do not vote in those states, the women of California must expect adverse criticism. The act providing for the issuance and sale of \$15,000,000 of state bonds for construction of the uncompleted portions of the system of state highways carried by a large majority, and we already have the finest highways in the country. So you Otsego people, instead of jacking up your autos and leaving them in cold storage through the winter, had better ship them to Los Angeles, come on with your families and tour California the same as you tour New York state during the summer months, as this is the land of sunshine and perpetual summer.

With our cousins Mr. and Mrs. E. Cummings of Milford, we motored to Santa Monica last week to see the Vanderbilt grand prize races. Bright sunshine and warm weather brought out large crowds and they cheered on Dario Resta in his Peugeot car to a wonderful victory, 300 miles at 87 miles an hour. The Saturday grand prize races were more exciting, as first one car would be ahead and then another. Atiken, who took Wilcox's Peugeot, after Wilcox had run part of the race, winning the 402 mile race at an average of 83½ miles per hour. Paterson, with a Hudson, made the record of running his car the entire race without a single stop. The frightful accident which caused the death of Jackson, driver of the Maimon, and several others, will probably end automobile races over the Santa Monica course.

We witnessed the Saturday race at Eighteenth and Wiltshire streets, a straightaway of two miles from the turn off Ocean avenue, and it reminded one of the Chinaman's description of a toboggan slide—"wah-l-s-h-walkee back," only this was a roar, a streak rushing by and out of sight at 100 miles an hour.

We have had the pleasure of meeting Mr. M. Whitney and wife, formerly of Milford, who are residing in this city. Mr. Whitney has a fine position with a wholesale millinery firm on Broadway. I first knew him when he was a postoffice clerk with A. S. Avery at Morris. Dan Kaset and wife are at their winter home in Pasadena, at 1187 North Los Robles avenue, and really think they will like California, especially the flowers. Mrs. M. W. Gardner is back from her eastern trip, after stopping at Auburn, Neb., for a visit with her sister, Mrs. W. H. Hay. Winter tourists are arriving in large numbers, although the rush will come after the holidays. E. A. Strong, Los Angeles, Cal., Nov. 22, 1916.

Entertains O. E. S. Social Club. Mrs. Harry G. Bard delightfully entertained about 25 members of the O. E. S. Social club at her home on Spruce street yesterday afternoon and evening. Dinner was served at 6 o'clock, after which the evening was pleasantly passed in various diversions.

## CAMPAIGN FOR NEW MEMBERS.

Attractive Program for Annual Meeting of Otsego Farm Bureau.

The annual meeting of the Otsego County Farm Bureau next Tuesday promises to be a memorable occasion. Floyd S. Barlow, manager of the bureau, is tending every effort toward a successful climax. The following committee, consisting of Frank McFee, chairman, Fred N. VanWise, M. P. Wellman, L. P. Butts, Clifford Morris, W. W. Capron, Arthur Seybolt, A. H. Murdock, L. L. Gardner, Fred A. Murdock, J. S. Lunn, G. G. McLaurie, Earl Hall and M. G. Keenan, appointed by Hon. Charles Smith, president of the Chamber of Commerce, met in the chamber rooms Monday evening and mapped out a plan by which the committee will aid the Farm Bureau in securing members. The committee starts off with much enthusiasm and is entering heartily into the work. In an interview one of the members of the committee said: "We expect to secure several hundred new members for the Farm Bureau organization. While I am a busy man and feel I cannot afford to spare the time from my business, I am conscious this is a worthy cause and am glad to be identified with the work. No man can refuse \$1.00 to become a member for one year of such a worthy organization and I confidently expect to have few refusals when I present the proposition."

Mr. Barlow has arranged a rare program for the day, which will be held in the Oneonta theatre. In addition to the musical numbers it must be gratifying to the women of this county to know they can hear Miss Martha VanRensselaer, who is probably one of the most gifted women, on "Home Economics." She has done for the women of the country what L. H. Bailey and other prominent men of Cornell Agricultural college have been doing for the farmers. Her life has been devoted to devising plans and labor saving devices to simplify the drudgery of the women who live in the rural sections. That she has succeeded no one can doubt who has kept in touch with her work.

The special rates which will prevail on the Otsego and Herkimer line assures a large attendance. Those in charge estimate there will be in excess of 1,500 people present.

### The Worm Turns.

I hereby give notice to the doctors of Canton that from this date my price to them will be 50c for each shave and \$1.00 for each hair cut and that double price will be charged for all work done after 7 o'clock in the evening, and if it shall be necessary for me to visit them and do work for them while confined to their home by sickness an additional charge of 25 cents per foot for every foot traversed going and coming will be made.—E. P. Arquitt.—[The Canton, (N. Y.) Plaindealer.

### BENEFITS OF COMMERCIALISM

Theme of Address Before Fortnightly Club By J. F. Thompson Esq.—How Big Business Has Benefited Mankind.

The second meeting of the Fortnightly club for the season of 1916-17, was held last evening at the home of Dr. Merton L. Ford on Chestnut street. There was a large attendance and all present listened with close attention to the paper by J. F. Thompson Esq., who for half an hour considered the theme of "Commercialism," which perhaps more than anything else has in recent years had the attention of all classes of men in the civilized world.

In his introduction Mr. Thompson referred briefly to the fact that labor in these modern days, whatever may have been the case in centuries earlier, does not entirely or perhaps even chiefly refer to following the plow or the digging of ditches. With equal force it applies to teaching, manufacturing, factories or railroads, operating a store or preaching the gospel; and that as civilization has advanced conditions have so changed that a large part of the population of every village and city is made up of those who do not labor principally with their hands.

In the earlier times, he said, necessities were few and each family was able on its own premises to provide most of the essentials for food and shelter. Now families and nations have become to a large extent dependent upon others for the things now counted as necessities; so that members of every community, in order to accomplish the needed transfer of commodities, have ceased to do exclusively manual labor and have devoted themselves to aiding in this exchange. This form of labor, which now is as necessary as the other, is called Commercialism.

From these premises, the speaker of the evening developed a picture of groups of individuals, in sense independent as to the work done, and mutually interdependent in the work of the modern world, so that general prosperity is not the result merely of crops grown or of articles made in one's own community, but also of the number of factories, railroads and merchants there are, and their busy conditions. In our own town organized effort is shown in the formation of chambers of commerce, merchants' associations and kindred institutions.

Further considering "big business," Mr. Thompson, while admitting the use of power to crush weaker rivals, to tax the people beyond righteous requirements and in general to make itself the overlord instead of the servant of the people, deprecated the disposition in later years to investigate, litigate and harass, to impose heavy burden and to follow a policy which in the end might become one of destruction rather than of construction. Local instances were referred to, and the inability of the railroads in view of the current unrest, to finance their lines so that needed improvements could be made.

In conclusion the speaker emphasized the fact that commerce has been the forerunner of civilization, that trade has preceded the flag and the gospel, and that it has raised the standards of living, overthrown barriers and has made nations neighbors one of another. Under these circumstances it may be well in the heat of antagonism to take account of the benefits derived from commerce and consider whether it would not be better to encourage and aid, rather than to destroy.

At the close of the reading there was the usual discussion, in which practically all took part and in which there were decided differences of opinion. Later delicious refreshments were served, and over the cigars the discussion continued informally.

The next meeting of the club, and the only one before the new year, will be held December 12, at the home of Dr. Daniel Luce, where W. D. Bush will speak on the topic, "Railroads."

### A FAREWELL AND A WELCOME.

Chamber of Commerce Directors Entertain Old and New Secretary.

Last evening, at The Oneonta, the directors of the Oneonta Chamber of Commerce gave a dinner to Paul S. Collier, the retiring secretary of the chamber, who departs tomorrow to assume the duties of his new office as secretary of the State Lumber Dealers' association, with headquarters at Rochester and to welcome the new secretary, Charles E. Westervelt, who has entered upon his new duties. The directors, with but few absentees, due to unavoidable circumstances, were gathered and a fine spread, embracing nine courses, all of special toothsome-ness, was partaken of with keenest relish.

After the coffee cigars were passed and following one or two matters of business which the directors discussed, President Smith expressed the appreciation of the Chamber and of the city for the earnest and faithful services performed by Mr. Collier since coming here and voiced best wishes for his future. He also said that the Chamber feels confident that it has secured the services of a man of force and ability and that the city and the Chamber extended a cordial welcome, confident that the good work will be continued.

Mr. Collier responded first, declaring that he had enjoyed his work in the city, had found the members of the board and the city itself congenial and united and that he should ever cherish a warm place in his heart for the city and for the directors with whom he had been associated. Mr. Westervelt also responded, briefly expressing his appreciation of the welcome, his favorable opinion of the city and its opportunities for effective work and expressing also a hope that he might attain to an extent at least the effective work of the previous administration.

There followed a round table "love feast," during which each director in a few words expressed his high regard for Mr. Collier and his best wishes for the future, not only of Mr. Collier but for Mr. Westervelt and the Chamber. It was one of those rare occasions when mirth and good fellowship abound, the sole regret being that Mr. Collier is leaving. It was suggested that an early dinner be arranged at which the entire membership may be given an opportunity to meet and greet the new secretary.

### SUICIDE AT OTEGO.

Mrs. Fred Ryer Becomes Despondent and Ends Life with Poison.

Otego, Nov. 28. — The death of Mrs. Lulu May Camp Ryer, wife of Fred Ryer, occurred at her home on Tuesday morning. Mrs. Ryer had for some time last been despondent at times. On Monday morning, after her two children had left for school, and Mr. Ryer having left the house for a few moments, Mrs. Ryer took a large quantity of Paris green. As soon as her husband discovered what she had done, a physician was at once called, but there was but little hope from the first of saving her.

The deceased was born at Westville in 1850, but spent the greater part of her life in Phoenix Mills, having lived in Otego nearly three years. She was a member of the Presbyterian church and was a highly respected woman. She is survived by her husband, and two children, Maurice and Leona, aged 11 and 9 respectively.

The funeral will be held at the Presbyterian church Wednesday at 2 o'clock. Rev. Dr. Scholl officiating. Burial in Bundy cemetery.

The offices are those occupied by the Philanthropic committee of the Woman's club on the second floor of the building. Anyone who knows of persons who are in need of work or of the other forms of assistance which it is the object of the federation to give, is invited to refer them to the secretary at her office and may feel assured that everything possible will be done to help them.

### OBSEQUIES OF DR. GRIFFIN

#### ELOQUENT TRIBUTES TO HIS LIFE AND SERVICES BY FELLOW CLERGYMEN.

Some 10 Members of Wyoming Conference Gather to Honor Memory of This Veteran Minister of the Gospel—Memory Will Long Be Cherished.

In attendance at the obsequies of the late Rev. Austin Griffin, D. D., held from the Methodist Episcopal church Tuesday at 2:30 o'clock, in addition to the family and friends from this city a large delegation embracing about 40 associates of the deceased in the Wyoming conference, the gathering nearly filling the spacious auditorium, a tribute indeed to his memory. At 1 o'clock Dr. Hall had conducted a brief prayer service for the family at the residence and from 1:30 to 2:30 o'clock the body, surrounded by a wealth of beautiful floral offerings, had been viewed by many friends at the church before leaving the bier with dry eyes as they viewed his form for the last time.

Dr. L. L. Sprague, president of Wyoming conference and long and intimately associated with the deceased, was in charge of the church service while seated with him on the platform were several participating in the service. The Oneonta district sextette sang very effectively "Fishes Untold," after which Dr. Hall read the twenty-third psalm, Rev. William J. Hill of Johnson City, also one of the veterans of the conference afterward offering the prayer. The thirtieth psalm was read as the scripture lesson by Rev. T. M. Furey of Scranton, Pa.

Rev. E. A. Martin, district superintendent of the Oneonta district, was the first to speak, speaking of the man's kindly interest in the young men of the conference and how when he (the speaker) had asked him to be a father the reply came, "I'll be both a father and mother to you." Rev. Mr. Martin referred to the boundless life and energy, zeal and sublime faith of the deceased and declared that he with Paul might truly say "To live is Christ, to die is gain." Dr. O. L. Severson, former district superintendent here, was the second speaker and he alluded to the "fallen giant" in eloquent terms and declared that he gave his life fully and unreservedly to the cause of Christ and well might he approach dissolution with a supreme faith in his God.

Rev. Dr. H. C. McDermott, formerly pastor of the Oneonta church who had known intimately the deceased and been associated with him in the general conference, paid his personal tribute in well chosen words, referring especially to the fact that Dr. Griffin did superlatively well every duty assigned and of the chief characteristics he enumerated his restless energy, the force of his personal character, and his power as a leader of men. He declared also that Dr. Griffin was a believer in the "old book," the "old faith" and the "old methods of work." Rev. Dr. J. A. Hensley of Binghamton followed Dr. McDermott and he referred more particularly to the work that Dr. Griffin performed in arousing the interest of the conference in caring for its retired ministers.

He spoke also of the strong effective ministry of the deceased, of his administrative powers and his deftness and adroitness in handling difficult problems and above all he was a hard worker.

Dr. Sprague spoke briefly at the last, alluding to the services Dr. Griffin rendered as a trustee of Wyoming conference, of the length of his service, perhaps unequalled in the history of the conference. He referred tenderly to the personal traits of the deceased, of his common sense, his logical reasoning powers, of his oratorical gifts, of his strong convictions, of his innate dignity, of his love of humor, of his love for woods and the brooks, of his supreme optimism and extreme adversity and his rugged perseverance. Well might he, said the speaker, declare as he did close to the last "I have fought a good fight and kept the faith." In closing Dr. Sprague declared that "a noble manly man, a Christian hero has passed to his reward."

The sextette sang "The Far Away Land" and Dr. John W. Nicholson of Binghamton pronounced the benediction. The body was placed in the vault at Riverside and later it will be interred at the pleasure of the family. The bearers were: Dr. L. L. Sprague, Kingston, Pa.; Rev. E. A. Martin, Oneonta; Rev. W. J. Hill, Johnson City; Dr. H. C. McDermott, Binghamton; Rev. W. M. Bouton, Unadilla; Rev. Albert Clarke, Cooperstown.

The following members of Wyoming conference in addition to those mentioned as participating in the service were in attendance: Revs. G. E. VanWert, W. H. Thomas, J. F. Jones, H. B. Cook, J. C. Johnson, R. E. Austin, R. P. Lesh, Frank James, R. S. Boyce, W. H. Horton, E. R. D. Briggs, L. J. Smith, D. L. Meeker, J. N. Coleman, C. M. Adams, H. N. VanDusen, George W. King, O. L. Buck, H. E. Wheeler, S. S. Robbins, S. A. Terry, A. D. Finch, C. H. Sackett, Scott Clark, P. A. Matteson, A. C. Snyder, C. R. Hielak.

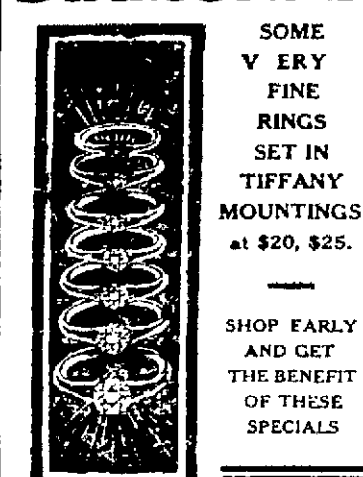

The relatives from away in attendance included: Mr. and Mrs. Austin L. Griffin and daughter, Miss Elsie, of Scranton, Pa.; Mr. and Mrs. John Griffin and Miss Clara Griffin, Schenectady; Austin Griffin, esp., Mrs. W. R. Turner and Miss Beatrice Turner, Albany; Mr. and Mrs. Fred A. Jennings, Cobleskill; Mr. and Mrs. E. Snyder, East Worcester; Dr. and Mrs. A. S. Peters, Worcester; Henry Wright, George Skinner and Mrs. William Croft, Westford. There were numerous friends and former parishioners from about this section also present.

Grands Association.

Yesterday, at Odd Fellows' temple

held and later the Past Noble Grands  
association held a convention, the ses-  
sions being in the afternoon follow-  
ing a sumptuous chicken dinner served  
to the visitors by the Rebekahs of the  
city. At the district meeting the chief  
business transacted was the granting of  
a charter to Sunshine chapter, Royal

The Past Noble Grands association

CHAMPLAIN COMEDY CO. COMING.

With Kathleen Barry and Richard  
Morgan at Theatre Next Week.

The Champlain Comedy company,  
headed by the well known stock stars,  
Kathleen Barry and Richard Morgan,  
and supported by a large company of  
talented players, is scheduled to ap-  
pear at the Oneonta theatre for one  
solid week, starting with the Monday  
matinee, Dec. 4. This is one of the  
largest stock companies traveling from  
city to city and playing at popular  
prices.

The management believes in pre-  
sented each play just as it was in-  
tended by the author. Among the big  
successes that this company is to pre-  
sent during their stay here are: "The  
Girl He Couldn't Buy," "Damaged  
Goods," "The Road to Happiness,"  
"The Natural Law," "The Final Set-  
tlement," "The Way Women Love,"  
"In the City of Broken Hearts," "The  
Man from the Golden West."

One of the big plays that the  
Champlain company will present dur-  
ing their stay in our city will be "The  
Natural Law." When God created the  
world he made a law, and wrote it  
upon the hearts of every man and  
woman, the law of attraction—sex at-  
traction. Every man and woman has  
felt the most irresistible force of that  
law, which is "The Natural Law."

Each play will be presented with a  
complete scenic and electrical equip-  
ment.

Daily matinees will be given except  
Tuesday, and the usual popular prices,  
10c, 20c, 30c and 50c at the evening  
performances, and 20c for adults and  
10c for children at the matinees, will  
prevail. Seat sale opens at the the-  
atre box office Saturday at 9 a. m.

## In the Oneonta Lobby.

Last evening, among the groups  
chatting about the lobby of The One-  
onta, was one composed of two men  
both of whom were spinning interest-  
ing baseball yarns. One of them, James  
H. Robin, was a star twirler of the  
New York State league in 1920 when  
Oneonta was a member of the league.  
He is now a successful traveling man  
visiting this city monthly. The other  
was Edward Phelps, formerly of the  
Brooklyn, who secured his release  
from that team to accept the manage-  
ment of the Albany team but who has  
now retired after 25 successful years.

His old home is near Albany and he  
is now enjoying a quiet life there, find-  
ing his chief enjoyment in a "buzz  
wagon" as he expressed it and follow-  
ing a pack of hounds which he owns.

## Highway Meeting Called.

of the town highway superintendents  
and supervisors with representatives

county was held yesterday and Messrs.  
Charles B. Perry of Deposit, Fred

harie, were in the city last night,  
guests at The Oneonta, on their way  
to Schoharie, where the annual meet-  
ing for that county will be held today.
